

GENERAL DATA

Max. distance motor to sockets	15m
Max. of simultaneous users	1
Estimated cleaning surface	100/120m ²
Estimated n° of sockets	max. 4

VACUUM UNIT SPECIFICATIONS

Primary filter	Brano paperfilter
Secondary filter	Foam Filter
Capacity	8L
Unit dimensions (W x H x D)	33 x 40 x 32cm
Required mounting space	50 x 60 x 60cm

MOTOR SPECIFICATIONS

General	220-250 VAC, 50Hz
Nom. power	1400W
Max. current	6,5 A
Motorframe diameter	139 mm

TURBINE SPECIFICATIONS

Motor Type	Through Flow
Number of stages	1
Max. negative pressure	3020 mm H ₂ O
Max. airflow	51,6 L/sec
Max. airwatts	587 W

COMPACT CENTRAL VACUUM CLEANING UNIT

premium

WHY A PREMIUM CENTRAL VACUUM UNIT ?

- Very competitive price designed for a typical market
 - apartments with max. 3-4 sockets
 - small family houses or bungalows of max. 120m² surface area
- Durable vacuum cleaner Ametek motor with high suction power
- Minimal maintenance
- Minimum noise level
- Works perfectly with all traditional Elek Trends accessories
- Accessible dust bag for easy changing
- CE-Conformity
- Trouble-free wall fixation
- Easy to connect

• MORE HYGIENIC

All the dust is taken out to the container which ends the recirculation of microscopic dust particles in the living area. Apartments / small houses stay cleaner and dust allergies are no longer a nuisance.

• MORE POWERFUL

With a central vacuum cleaner, the motor and fan are fixed in a remote position, which means it is possible to have a more powerful motor: This produces much more suction. More suction means more penetrating cleaning so you can clean more thoroughly in less time.

• QUIETER

Thanks to the use of an Ametek patented sound reduction system on the motor, the unit has a minimum noise level and can even be put away in a kitchen.

• MORE EFFICIENT

The premium cleans more thoroughly and more quickly. The wide range of tools and attachments means you can clean almost everything from houses to cars and pets.

• MORE ECONOMICAL

This specially designed unit combines high performance with a compact size. The Premium is an almost maintenance-free system with long life motor which also upgrades the value of your house.
